- Traveling.
- Fishing.
- Adventure Racing.
- Exercise & Sports.

Looking for a challenging, creative, and competitive place where I can learn and grow responsibly and gain insights into what's ahead. I love coding and have taught myself to do it. I focus on making web apps and systems that work well and can grow with needs. I make sure my code is clear and well-explained, and I enjoy working with others to get things done.

Experience

Jr. Software Engineer

Singularity Limited. August 2021 – May 2023.

Managed development projects, fostering team collaboration. Proactively maintained applications, introducing innovative features. Contributed technical insights in planning sessions with sales teams and clients to refine project proposals.

Projects: Corporate Website IPDC Finance Limited (**ipdc.com**) Corporate Website Nagad MFS (**nagad.com.bd**) Influencers Profiling (**the-marvel.com**) and Maintained projects **idlc.com**, and **banglaiscool.com**.

I was responsible for developing the front end of various websites, as well as maintaining and optimizing existing websites. My work primarily involved using JavaScript, Vue.js, and Nuxt.js to create dynamic and responsive user interfaces, while SASS was utilized for efficient and scalable CSS styling.

Education

Bachelor of Computer Science & Engineering.

Result : CGPA-3.40/4.00
Department : Computer Science and Engineer (CSE)
Institute : Eastern University, Dhaka
Passing Year : 2019

Achievements

Champion (The Hour of Code) Coder Trust: The Hours of Code in 2015.
Champion (72 hours programing contest) Singularity Limited: 2022

Voluntary work

I had worked at Eastern University Math Olympiad 2015 & 2019 as an organizer. Member of Eastern University Computing Club. Programming Club, Cultural Club, BASIS student's forum and Engineering Club.

Proclamatio

I do hereby declare that the particulars furnished above are accurate and true to my knowledge.
